ESG Screens

The Fund intends to invest in companies with measurable ESG outcomes, as determined by Brown Advisory, and seeks to screen out particular companies and industries. In addition to our proprietary and qualitative ESG analysis, we rely on a third-party provider to apply a rules-based screening process which seeks to identify companies that may have controversial business involvement, as determined by Brown Advisory. For example, the Fund seeks to exclude companies that may defy the United Nations Global Compact Principles and the Norges Bank exclusion list. The Fund also seeks to impose investment guidelines on possible controversies including, but not limited to, controversial weapons, conventional weapons, animal testing, fossil fuels, adult entertainment, alcohol, tobacco and gambling.

Note: For further information please contact us. It is important for investors to understand that the data informing this process is derived from third party sources, including companies themselves. Although we believe our process is reasonably designed, such data is inherently subject to interpretation, restatement, delay and omission outside of our control.
